FROM THE EARTH TO THE TABLE

The Somontano of Barbastro has some unique products. This climate and the hard work of its people, produce excellent wines, oils, products from the market garden such as the pink tomato; salt, and even kitchen utensils.

A fertile land that has managed to be recognized as an Aragon Territory of Gastronomic Importance in 2018. In Somontano it is impossible to get bored. Its adventure sports, as well as its incredible gastronomy and its rich ethnographic heritage make this region an ideal travel destination.

Another unique moment to get to know Somontano is during the Somontano International Wine Festival. It is the chance, during the summer, to learn more about the world of wine and one of its best pairings: music and culture.
