

SECRETS OF GUARA

CULTURAL ROUTES WITH A DIFFERENCE

SECRETS OF GUARA

Guara is not just ravines and canyons. Neither is it just whimsical limestone formations, and territory where you can live a thousand and one adventures, or landscapes that take your breath away. No. Guara is much more. It is not possible to understand these mountains without remembering the great rural exodus it suffered in the 1960s and 1970s. And without counting its new residents who year after year come with new enthusiasm, new ideas and lots of desire to get things done.

This road is a long one. Each of the stages are routes in which you will have to walk for at least a couple of hours. We have hidden a treasure in each of the locations.

At each of the stops on this trip, there is a hidden treasure. To locate it, we provide you with coordinates and a series of clues. We recommend that you download the free application available from <https://www.geocaching.com/play> There you find all our geo-located treasures and clues.

THE STORY OF GRATAL AND GABARDIELLA

Gratal and Gabardiella were two mountains who were united and in love, which is how lovers tend to be.

But Gabardiella's father did not approve of the relationship. His daughter was young and beautiful and Gratal was already an old hill and would surely die soon.

So Gabardiella's father hired a certain Guara, a heartless killer, to end the union. Guara was a professional, and with a single stroke, destroyed the mountain range where Gratal and Gabardiella were together. A sharp blow that did not kill the love that the two had, but it did prevent them from being together. In the gap that was left, Gabardiella shed her tears, creating the river Flumen.

But Gratal was an old hill and had the patience to wait for the right time. When Guara fell asleep, Gratal tore off his own peak and sank it into Guara's chest. Since that day, if you look at the skyline at the top of Guara, you will see it, lying there, motionless forevermore.
